20 November 1978

MEMORANDUM FOR: Chief, SALT Support Staff
FROM: Director of Central Intelligence
SUBJECT: SALT Materials

1. I have finished the two notebooks for the IIM on SALT II. They certainly are thorough and excellent.

2. One other consideration that occurs to me is whether we will be able to disclose a violation within the limits of protecting our sources and whether, even if we can use all of our sources, we can be persuasive either to the Soviets or to the world public that there has been a violation. I wonder if we have to add this dimension to our charts.
